

Panorama door

Maximum transparency, natural reflection

The Panorama door is an ALU door available in 40 mm or 60 mm versions. What makes the door so special is that panels do not have vertical dividers, providing a wide panoramic view. The high-quality Plexiglas is extra thick and extra strong, hardly distorts and it looks just like real glass. All these features result in the windows being naturally reflective and looking highly attractive.

Panorama door 40 mm
Double Plexiglas
Optical 20 mm
(4-12-4 mm)

Panorama door 60 mm
Triple Plexiglas
Optical 40 mm
(4-14.75-2.5-14.75-4 mm)

Plexiglas Optical

The Panorama door is available in a maximum width of 4,000 mm and a maximum height of 4,500 mm. The Panorama doors look particularly good in buildings that are designed to be appealing, but are just as important where light and visibility matter. The special thing about the high-quality Plexiglas Optical is that it looks just like real glass but has the added safety of plastic. The Plexiglas Optical windows are available in 20 mm double glazing and in 40 mm triple glazing.

U-value of the Panorama door 40:

4,000 x 4,000 mm: 4.35 W/m²K

U-value of the Panoramic door 60:

4,000 x 4,000 mm: 2.45 W/m²K
